B.A. Gastronomy

Universidad de La Sabana
2014 – 2019

LANGUAGES

English — full professional
Spanish — native

PROFILE

Product designer with 6+ years creating digital experiences for e-commerce and SaaS, now specializing in AI-powered UX. I design the Ferrero digital shelf across major US marketplaces and build generative AI into design workflows. Focused on conversational interfaces and systems where people need to understand, trust, and act on AI-generated output.

EXPERIENCE

Digital Shelf Designer

eStoreLabs (Ferrero USA) · Sep 2024 – Present · Remote, US

- Design hero images, A+/enhanced content, product detail pages and Amazon Brand Stores for Ferrero brands — Nutella, Kinder, Ferrero Rocher, Tic Tac and more — across Amazon, Walmart, Target, Kroger and Instacart.
- Translate strict global brand guidelines into marketplace-specific experiences built to convert at thumbnail scale, including high-stakes seasonal campaigns (Super Bowl, World Cup).
- Deliver multiple brands and portfolios in parallel, on deadline, without compromising quality.

Marketing Graphic Designer

Planet of the Vapes · Jul 2023 – Present · Freelance, Remote

- Lead digital content across social, email and e-commerce, applying UX principles to the customer journey.
- Integrate generative AI into the creative workflow to ship faster and improve performance across channels.

UX/UI Designer

trades.org · Jul 2022 – Dec 2023 · Remote

- End-to-end UX/UI across multiple web products: research, wireframing, prototyping and usability testing to reduce friction in complex journeys.

UX Designer

Casabianca Cycling Apparel · Sep 2018 – Jun 2022 · Remote

- Led e-commerce web design, branding and product design; designed a new apparel line that drove a 25% increase in sales.

SELECTED PROJECT

Conversational AI Checkout Assistant (self-initiated) — Designed a SaaS checkout and a conversational assistant (payment recovery, billing transparency, context-preserving support escalation), built end to end with an AI-assisted workflow. Part of IBM's Generative AI for UI/UX specialization.
